

Rémy Mondi

Full Stack developer

About me

Hi there! I am Rémy, a full stack Web developer.

I design and develop modern web applications and custom websites, combining technical quality, performance, and user experience.

My expertise covers both front-end and back-end development, and I am comfortable with WordPress, Drupal, and Strapi CMS, as well as React.js/Next.js application development.

Skills

Professional experience

Algox

Mai 2023 - Aujourd'hui | Metz (France) | Freelance
